ANTARCTICA!

The most isolated continent on earth, this rugged landscape is some 1,200 miles long and reaches beyond the Arctic Circle. Its shores are comprised of unusually sculpted icebergs, blue-tinged glaciers, majestic mountain peaks and a steep ice shelf that continues to shrink at an alarming rate.

Though the peninsula is covered in icy tundra, it actually features the mildest climate in Antarctica, the perfect environment for hosting the only flowering plants on the entire continent, Antarctic Hair Grass and Antarctic Pearlwort. In addition, the icy waters surrounding the peninsula cater to various species of seals, penguins and seabirds, including the Cape Pigeon, the American Sheathbill and the Antarctic Tern.

Enjoy four days of scenic cruising in this remote area of the world - it's a breathtaking wonderland nestled in nature's frosty embrace.

Note: Antarctic Peninsula is a scenic cruising site. The ship will slowly travel past while a knowledgeable port lecturer points out significant sites you'll be able to see from on-board.
